

## **Bowen Island Municipality**

### **Reminder Road Winter Maintenance**

Please remember that during road maintenance operations this winter, trucks fitted with ploughs and salt dispensers need to be able to turn around at the ends of roads and cul-de-sacs.

In the past, vehicles and other items in these areas have caused trucks to get stuck – operators are instructed **NOT** to salt or plough sections of road that are congested with parked vehicles.

Drivers should park as far off the pavement as possible and avoid cul-de-sac and other turnaround locations on our roads to help our crew provide better winter maintenance service to Bowen Island.

Please help us in making Bowen's roads safer for all.
