

Note: All boundaries and locations are approximate; where they do not follow property lines they are subject to minor corrections at the time of specific development applications.

CAUTION

The circles indicate the conceptual locations that have been identified for the different types of local park identified in the Bowen Island Parks Master Plan (1994). Actual locations would be negotiated at the time of subdivision or rezoning and determined at the neighbourhood planning level in consultation with the neighbouring properties.

This map should not be used for recreational purposes. **Some of the parks and trail networks represented on this map are proposals only and do not exist on the land.** Many of the proposals are also located on what is now private property. Information regarding the location of existing parks and trails may be obtained from the Bowen Island Municipality.

The parks and trail networks proposed on this map are subject to the following provisions:

- a) All proposed park and trail designations are general locations subject to consultation with the developer and neighbouring properties.
- b) Parks and trails can only be provided as a condition of subdivision of the land, or through voluntary agreement of a property owner by dedication or sale of the land.
